

COST BASIS ELECTION FORM

The cost basis of covered shares, generally shares acquired on or after January 1, 2012, is determined using the fund's default method, unless you elect another method. The Transparent Value Funds default method is Average Cost. If available, the cost basis of noncovered shares, generally shares acquired before January 1, 2012, is determined using the Average Cost method. Complete this form to elect a different cost basis method for covered shares.

Do not use this form to:
